REFEREE "The Last Word" in

SEMICONDUCTOR CROSS-REFERENCE

Easy Install NO learning curve

You'll be an Expert in Seconds

- **Cross Reference** all types of **Transistors, IC's & Diodes**
  Hundreds of Thousands of Devices

  Bipolar Transistors, FET's, UJT's, Photo Transistors, Thyristors, Triacs, Opto Electronics, Diodes, Zeners, Schottky's, LED's, MOS, CMOS, PMOS, NMOS, DTLs, TTLs, CPUs, Memory, and many, many more device types produced by most manufacturers

  ● *Includes Pinouts for Many* ● *Also lists ECG, NTE & SK*

- **Industry Directories** for Hard to find Companies
  Tens of Thousands of Listings
  - Consumer Electronics Industry
  - Consumer Electronics Parts Sources
  - The Entire Computer Industry
  - Semiconductor Manufacturers

- **Utilities** include
  - Unit Conversion
  - Standard Resistor Value Tables
  - Resistor Color Generator with Tolerance
  - Wire Gauge Tables
  - 6,300 Acronyms

Runs in DOS, Windows 3.1, 95, 98, NT Minimum System 386 4meg ram 25Meg drive space
